

ACCESSORIES

Markit

Markit is an accessory that can be used to identify distribution cables in street lighting installations to facilitate maintenance work.

The system is made up of a flange on which marker rings are positioned.

Three colours of flanges are available to distinguish where street lighting cables come from or go to.

A full starter kit allowing for bespoke marking on site.

ADVANTAGES

Saving time and improving efficiency for maintenance work.

Cable marking can be adjusted on site and without tools.

The system can be adapted to any size of cable up to 5G35 mm².

TECHNICAL CHARACTERISTICS

Material

- Marker rings: Flexible PVC.
- Flanges: polyvinyl chloride.
- Cable attachments: 6.6 polyamide.

Installation

- Operating temperature: -20°C to +85°C.
- On cables with diameter of ≤ 30 mm (up to 5G35 mm²).
- The flanges are pre-assembled.

Standard colours

- Flanges: 3 colours in the kit: yellow, green and red.
- Markers: white.

Marking on the markers

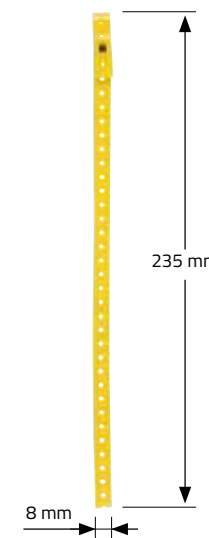

- Letters: A to Z.
- Figures: 0 to 9.

Packaging

- Available in a kit including:
 - 1 storage box.
 - 100 pre-assembled flanges/capsules and 100 cable holders.
 - 100 marker rings for each marker: A to Z and 0 to 9.
- Each component is also available for restocking in batches of 100.

Installation standard

- NF C17-200 and associated guides.

MARKIT MARKER SYSTEM

Cable holder to attach the identification system to the street lighting cable without tools or if visualisation is impaired.

Capsule not fitted to block the marker rings after insertion on the flange.

Pre-fitted flange to save time.
A choice of 3 colours (green, yellow or red).

Marker rings to position on the flange.
An infinite number of types of identification with letters from A to Z and figures from 0 to 9.

**FULL KIT**

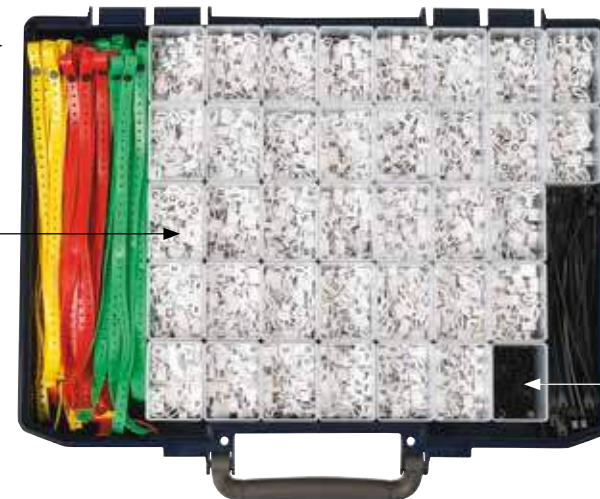

Photos are non-binding

The full kit is delivered ready to use in its storage box, making it ideal for adjusting identification on installations.

100 pre-assembled flanges (34 yellow, 33 green and 33 red).

100 marker rings for each letter from A to Z and each figure from 0 to 9.

100 cable holders.

100 capsules to lock the marker rings on the flange.
